

BodyKind

YOUTH SURVEY

Your Body Image, Your Voice.

QUEENSLAND SNAPSHOT 2023

Butterfly Foundation's second BodyKind Youth Survey was conducted in 2023 to continue to understand the body image experience of young Australians aged 12 to 18 years. In total, 2,942 young people responded.

What do young people in Queensland have to say?

Who are they?

454 (15.4%) of survey respondents were from Queensland (QLD).

The majority (83.7%) of QLD youth were aged 15-18 years (M = 15.81 years).

Figure 1. Age distribution of QLD respondents

Respondents most frequently identified as:

Female
85.7%

Male
8.6%

Heterosexual
66.3%

Bisexual
15.2%

Non-Indigenous
94.3%

Their body image

53.9% reported some level of body dissatisfaction.

37.1% reported a high level of body dissatisfaction.

Their body image

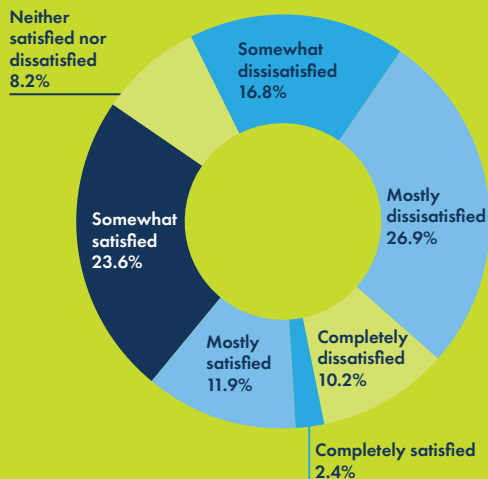

Figure 2. Body satisfaction of QLD respondents

96.9%

Reported some level of concern about their body image.

46.3%

reported a high level of concern about their body image.

65.4%

desired to be **more muscular** and 42.5% desire to be **taller**.

70.7%

desired to be **thinner/leaner**.

COMPARISON TO 2022 Whilst 2023 respondents statistically reported overall a greater desire for thinness/leanness than 2022 respondents, the effect size was small ($p < .001$, $d = 0.30$).

How much do QLD youth appreciate their body?

23.8%

never or rarely respect their body.

40.4%

never or rarely feel good about their body.

48.6%

never or rarely are comfortable in their body.

22.2%

never or rarely speak positively about their body.

46.2%

never or rarely feel grateful for what their body allows them to do.

73.2%

never or rarely talk to someone if they're not feeling good about their body or appearance.

46.2%

never or rarely spend less time focusing on their appearance to have more time for other things they enjoy.

73.3%

often or always try to value people for their personality and who they are rather than how they look.

*Note: based on responses from 404 young people

QLD youth most frequently compare their bodies (often/always) to:

When asked what is most important to them from a list of being healthy, sporty, good looking, smart and kind,

14.6%
ranked being good looking
as the most important

39.6%
ranked being kind
as most important

30.6%
ranked
being healthy

Has body image ever stopped QLD youth from doing certain activities?

49.2%

reported a high level of disengagement from going to the beach.

36.0%

reported a high level of disengagement from going to a social event, party or gathering.

51.1%

reported a high level of disengagement from going clothes shopping.

39.6%

reported a high level of disengagement from doing a physical activity/sport.

40.8%

of young people reported a high level of disengagement from giving an opinion or standing up for themselves.

Nearly a third

reported a high level of disengagement from raising their hand in the classroom, and around a quarter reported a high level of disengagement from focusing at school and going to school.

*Note: based on responses from 331 young people

Social media

Of the 380 (83.7%) QLD youth who reported using social media,

68.7% described using social media more than they would like.

63.2% reported that social media made them feel dissatisfied with their body.

In relation to social media literacy strategies:

69.5%

never or rarely took a break because it was affecting how they felt about their body.

35.8%

never or rarely posted unfiltered images.

46.1%

never or rarely unfollowed pages that made them feel bad about their body.

66.1%

often or always comment kindly and honestly on a friend's post.

What is their experience of appearance-related teasing?

79.5%

reported receiving negative comments or being teased about their appearance.
